Impact 2818 offers a standard menu. We do not offer celiac friendly or vegetarian menus at this time. If you have special dietary, doctor-directed meal concerns, please contact the Camp Manager at the number below to make arrangements for sending food to supplement our menu. Any meals sent to the camp to be prepared by our staff for your camper will need to have a doctor's note explaining the needs and allergy. We cannot prepare raw foods. Please refer to our allergen information online at impact2818.org/faq.

Level of Care

At the 6-8 grade level we expect campers to handle personal hygiene on their own. Campers are responsible for their own sunscreen and insect repellent. Female campers should be prepared to handle feminine hygiene. We expect campers to be aware of their allergies.
